

POWER PERFORMANCE PROTECTION
THE #1 CHOICE OF INFORMED MECHANICS
AND VEHICLE PERFORMANCE ENTHUSIASTS

XP3

Improves Combustion

- **Increases Torque and HP**
- **Enhances Atomization**
- **Boosts Fuel Economy**
- **Reduces Pollution**

Purifies Fuels

- **Disperses Water and Moisture**
- **Cleans Injectors and Deposits**
- **Stabilizes and Restores Fuels**
- **Prevents Oxidation**

PRO GRADE FUEL PERFORMANCE

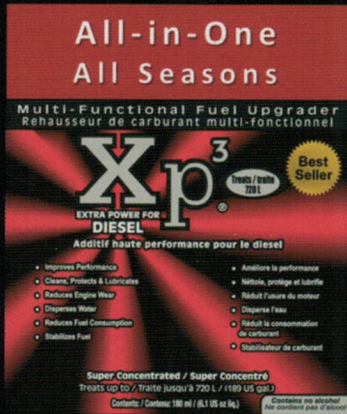

video.XP3.ca

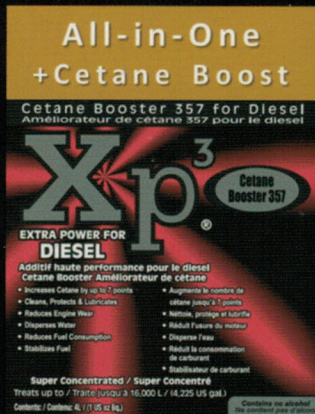

What is XP3?

XP3 is an industrial strength, commercial grade, multi-functional fuel improver that contains a blend of active and purely concentrated fuel enhancing compounds.

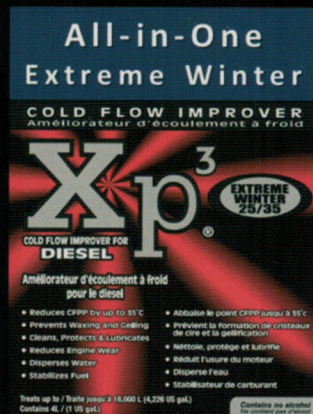

XP3 differs over standard consumer retail grade additives, which are commonly full of non functioning diluting fillers because of the retail consumer markets they are intended for. (Refer to MSDS for details.)

XP3 is the official supplier of fuel additives for the Association of Manitoba Municipalities MTCML Trading program.

Ryan B. and George P. from Battlefield Equipment, Winnipeg, MB.

"All our diesel, gasoline and heating oil powered rental equipment are now treated and protected with XP3. Every winter, we averaged over 80 incidents of fuel related problems. During the winter of 2017-2018, we had 100% uptime on all rental units. With XP3, we save time, money and aggravation for our branch while providing a more reliable rental experience for our customers."

"We treat our BULK tanks with XP3, which feeds fuel to more than 50 pieces of heavy duty equipment . We are saving thousands of dollars every year on fuel and less mechanical break downs. We have also seen extended operating life of our equipment."

Centennial Gravel, Ile Des Chenes, MB.

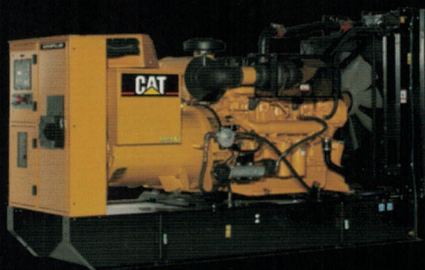

"We tested XP3 during an entire threshing season. The combine that was using XP3 treated fuel consumed 5.49% less fuel over the other combine that was using non-XP3 treated fuel. We now treat our entire fleet of and are confident in recommending XP3 to anyone."

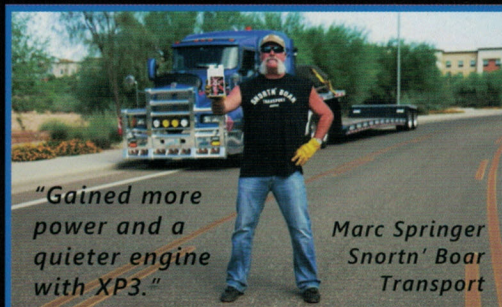

Christensen Farms, Magrath, AB

"With XP3, I've increased my fuel economy by a 1/2 mpg on my Peterbilt." Harold S., Edmonton, AB

30 month study using multiple stationary generators showed a reduction of fuel consumption by 8.8% in phase 1 and 8.9% in phase 2 testing.

"Gained more power and a quieter engine with XP3."

Snorth' Boar
Transport*

Trusted globally by leading industrial, commercial, railway, mining, transport, manufacturing, power generation, marine, powersports and fuel distribution companies.

Pure Professional Grade vs Diluted Consumer Grade

XP3 provides more functions than regular retail grade additives and can be 3 to 4 times more economical.

Economical

Expensive

Examples shown in cents per treated litre of gasoline. XP3 treatment cost for Diesel is 3.2 ¢/L or less. Retail, consumer-grade additive sample prices may vary by region.

CLEAN TECH VALIDATED

Recognized by Eco-West as a "Clean Fuel Technology" that improves fuel economy and reduces carbon emissions.

DYNO TESTED

Dynamometer Tested. XP3 treated fuel produces more power, energy and torque.

EMISSION TESTED

XP3 reduces CO₂ and C_xH_y emissions, (Carbon Dioxide and Hydrocarbon Monoxide). Tested by ATEC at Red River College.

BIO FUEL PROTECTION

XP3 resolves and corrects problems caused by ethanol and bio-based fuels.

Bottom Line: "Informed" buyers of fuels and fuel additives will always choose industrial strength, multi-functional fuel enhancers over diluted, consumer-grade retail products.

WARRANTY SAFE

AVAILABLE AT

Fuel Additive Guarantee

- Xp Lab, Inc. guarantees that all of our Xp³ fuel additives do not cause any harm to any engine, engine part, or equipment.
- Xp³ fuel additives will not change the ASTM (Standard Specification) of the Fuel, including Low and Ultra Low sulfur diesels, when treated with Xp³.
- By not changing the fuel specifications, all fuels treated with Xp³ meet the ASTM conditions approved to be used in all engines, including new generation (Tier 2, 3, and 4) diesel engines and Diesel Particulate Filter (DPF) equipped engines.
- The use of Xp³ will not void your manufacturer's warranty.
- We are 100% committed to you, our customer.
